Could You Use $8,142.00?

WHAT ARE YOU GETTING FOR TAXES YOU PAY?

...ook around your farm and see how many acres you are paying taxes on that are not returning you any income. How ...any acres of abandoned farm land do you have that is be...aining to grow up. How many acres of severely cut over wood ...nd do you have. You can makes these acres produce and ...ay you. Join in the Plant More Trees for Appomattox County ...rogram. Place your order now. Join your neighbors in plan...ing for the future. Turn those unproductive acres into pro...ucing acres.

Nearly everyone could use $8,142.44 and it can be yours with an investment of $72 in loblolly pine seedlings. The average farm in Appomattox County has sixteen acres of land that is not in production. Put it to work — plant it in trees.

You can select one of three plans for your farm:

PLAN I

Clear-cut for pulp wood and/or saw timber at 20 years of age; returns $58.19 per acre—for 16 acres $349.14.

PLAN II

Thin one or more times for pulp wood and/or saw timber using good practices, then clear cut for saw timber at 40 years of age; returns $308.62 per acre — for 16 acres $1851.72.

PLAN III

Thin two or more times for pulp wood and/or saw timber using good practices, then clear-cut the saw-timber at 60 years of age; returns $508.90 per acre — 16 acres returns $8142.40.

APPOMATTOX COUNTY GOAL IS 1,000,000 SEEDLINGS

The Appomattox County Plant More Trees Committee has established a goal of 1,000,000 Pine seedlings to be planted in the season just ahead. This is a very conservative figure in view of the fact that this would be just a few over 1,000 per farm in the county. When you consider that there is an average of 16 acres of open land per farm not in crop or pasture that should be planted and when you consider the thousands of badly cut over timber in the county that should be planted the goal mentioned will seem very small. Look your farm over for abandoned crop land and severely cut over timber land and place your order now for as many seedlings as you possibly can.
